

## Preface: MEC for Education

Warm greetings to Parents, Teachers, Learners and Communities of the Eastern Cape, and a word of gratitude for the opportunity to present the results of the Matric Class of 2014. Once again, time has come to account for the academic performance of the Department,

and I am undoubtedly grateful to announce yet another performance improvement from 64,9% in 2013 to 65,4% in 2014. Well done to all teachers and learners who burnt the midnight oil in 2014 to guarantee us this success.

Once again I am reminded by this performance improvement that the primary mandate of the Department is to provide quality education to all children in the Province, and ensure that education is accessible to all children eligible for basic education services. This is a fundamental right enshrined in our constitution, and it is equally a significant commitment we have made to various international conventions on agreed development targets as enshrined in Education for All (EFA) and the Millennium Development Goals (MDGs).

I am therefore humbled to present to you the official Eastern Cape Department of Education Learner Performance Report for NSC 2014 Examinations, and it is presented to you in the form of 2 separate booklets, one for the 2014 Grade 12 National Senior Certificate (NSC), and the other for the Annual National Assessment (ANA) results.

### 2014 CONTEXT

#### Achievements and Challenges

The new academic year will open with improved Grade 12 NSC results of 65.4%, In fact this is the first time the Eastern Cape produced such a high percentage pass rate since 1994 and we are hoping to jealously protect this upward trajectory. However, the 2014 context is that of noteworthy achievements that sought to guarantee us a measure of relative stability, and these include;

- 100% delivery of LTSM before the start of the 2014 academic year
- 1,562 129 that are now benefiting from No Fee school policy,
- 55 537 learners that have access to scholar

transport services,

- 1, 646 142 learners that are receiving a nutritious meal on every schooling day
- 27 514 learners are now able to access special and specialised education services
- 80,276 Orphan and Vulnerable Children (OVC) that have access to support

Notwithstanding, the department continues to be confronted by structural and systemic challenges that are in turn compounded by broader historical and the apartheid political economy legacy challenges. The negative effects of population migration patterns in search of greener pastures continue to create instability of learner numbers in the system, hence problems of imbalance between Post Provisioning Norms and budgets for the compensation of employees.

The impact of this instability is huge on teacher demand and supply in the Province. In mitigation, a number of progressive collective agreements were reached in the Education Labour Relations Chamber, including Collective Agreement No 1 of 2014 that seeks to move teachers additional to the establishment. In other cases we have experienced unprecedented demands for Afrikaans mother tongue and Math teachers, and these are not always in supply as required.

However, these challenge were addressed within the first quarter of the academic year, and inspite of the challenges, the majority of schools had teachers in front of learners at the beginning of the academic year.

#### What did we do right in 2014

The Department reworked its learner support strategy and launched a Matric Count Down support program on the 12<sup>th</sup> June 2014 in Fort Beaufort. The MATRIC COUNT DOWN support program is a teaching and learning campaign aimed at supporting learners and teachers directly at classroom level through a number of support packages. The target was to impact on:

- the number of schools that obtained 60% and below
- the number of Bachelors
- the number of Grade 12 learners who pass Mathematics
- the number of Grade 12 learners who pass physical science

The Department provided a basket of support programs using a mixture of contact and multimedia approaches, including:

- Telematics Centres attached to schools to beam live Math and Language lessons from the

University of Stellenbosch. The lessons included Grades 10 and 11 classes for sustainability. Each Telematics Centre is designed to host a minimum of 5 other High Schools to benefit directly from these live transmissions

- 80 000 subject study guides and study tips material distributed to all schools with a Grade 12 class
- Saturday contact classes hosted by all 411 schools that obtained 60% and below pass mark
- Winter and Spring schools in all 23 Districts to support revision and preparations for the final examinations
- Mentoring and coaching programs to support school principals in the underperforming schools.

We focused specifically on the 8 Districts that performed between 50% and 60%, and these are Grahamstown, Fort Beaufort, Sterkspruit, Qumbu, Mt Frere, Butterworth, Idutywa, Mbizana, Libode, and Lusikisiki. As you will note, some like Qumbu have done very well to push up their results.

## **RESPONSIBILITIES**

A learner stays in our education system for an average of thirteen years, starting at Grade R and culminating with Grade 12. The Annual National Assessment (ANA) and Grade 12 results have become critical tools to judge performance of both our system and our learners.

Through examinations, parents, villagers, government and communities should be able to determine the strengths and weaknesses of both learners and the system itself. This will go a long way in helping learners to prepare themselves for their historical responsibilities.

Learners and young people in schools and other institutions of learning have only one duty today, the duty of studying; studying should be seen as a social duty. By discharging that duty, learners shall be paying all debts they may have to society and the heroes/heroines who sacrificed to make possible this present society. All this sacrifice was made to dignify schools and higher institutions of learning in South Africa for poor people, both black and white.

Learners should study more and strive to be better every day as we all walk towards a better future. The future needs technology, culture and knowledge. Self-improvement on a day-to-day basis should become a

necessity for all of us. Education, Science and Technology form an inseparable triad necessary for a country's development.

Our Education system must not only teach learners academic work but must also teach human values: generosity, modesty, simplicity, solidarity, and respect for humanity.

To those who have passed the examinations, we say they must go on to utilise the opportunities opened up by our country to contribute in building a better life for our people.

To those who could not make it in 2014, we say they must not despair. To make a mistake is not a sin or disgrace. The sin is to repeat the mistake. By repeating Grade 12 you will have a better opportunity to deal with your mistake and improve your performance.

Let me take this opportunity to thank all the learners, parents, educators, and officials for the hard work that they have put in 2014 and I hope that they will double their efforts in 2015 to achieve even far better results. The Eastern Cape should not be moving with fowls but should be flying with eagles. This can only be achieved if as a collective we focus on the same targets, i.e. the LEARNER.

It is not a disgrace to be poor, illiterate, to fail and be unemployed. What becomes a disgrace is when a modern sophisticated country like South Africa is unable to reduce unemployment, eliminate poverty and illiteracy faster than it is expected.

## **CONCLUSION**

### **BANTU BAKOWETHU!!!**

This report is humbly presented to you as an instrument of improving performance, career-pathing and determining progress. It takes a village to raise a child.

Our greatest heroes are you, the ordinary people, who continue to make tremendous sacrifices and immense contributions in ensuring that your children's education takes priority. We promise not to fail you.

Education remains a major contributor in dealing with poverty and economic development.

Indeed, the release of results (this year on 06 January 2015) is an annual function that marks an important

date in the calendar of Education in our country. Word of gratitude goes to my colleagues in the Executive Council for their unwavering support, as well as members of the Legislature and the Portfolio Committee on Education for their robust oversight on the work we are doing.

Last but not least, is a word of heartfelt gratitude to my family for providing love, care and support in a challenging context like ours?  
I thank you

A handwritten signature in black ink, appearing to read 'M. Makupula', written in a cursive style.

**M. MAKUPULA    MPL**  
**MEC: EDUCATION**

## Preface by the Head: Education

Well done to the Matric Class of 2014 for such a sterling performance. The Class of 2014, compared to previous cohorts, has had a significantly different context, without which interpretations of learner performance trends for the 2014 academic year cannot be complete. First is the change

brought about by the introduction of Curriculum and Assessment Policy Statement (CAPS), and its impact on the Matric Class of 2014, which was the first cohort of learners to write the CAPS aligned national senior certificate examinations.

By definition and implication, CAPS was a complex change process that brought along a basket of alterations to both form and content of subjects across disciplines, including new subject content for subjects like Math, higher levels of cognitive demand for others like Math Literacy, as well as differently structured question papers.

However, the Department had put in place a number of programs to mitigate the impact of these changes, including the training and induction of teachers to CAPS, provisioning of relevant CAPS learner and teacher support material, as well as the launch of a comprehensive Learner Attainment Improvement Strategy.

Secondly, is the impact of system wide improvement projects that sought to stabilise the Department in the short term, and transform the management and administration of the Department in the medium to long term. Key projects include:

The redesign of the service delivery model in a way that allows the Department to be responsive to its context and flexible in addressing its challenges.

The fine tuning of the provincial learner attainment strategy in a way that responds to reading and numeracy challenges of our primary schools, as well as poor learner performance in the gateway subjects of Math and Science.

The impact of these interventions in the system was commendable, including a continuous improvement of matric results from 64, 9% in 2013 to 65, 4% in 2014. The impact of these improvement was significant at District level where it matters most. Noteworthy improvements include the following observations:

The top performing District in the Province is far above national average at 82.3%

5 Districts performed within the national average at 73.5% on average

The number of Districts performing below 60% has been drastically reduced from 11 to 5

Commendable increase in the number of Bachelors from 17,6% in 2012 to 20,1% in 2014

In 2015 the focus falls on schools performance improvement and the capacity of institutional support systems to turn schools around. The starting point is school leadership, with greater support to school principals as curriculum leaders and change agents for their schools performance improvement.

Teacher proficiency in subject content delivery will be receiving an unprecedented attention, and that includes new institutional and service delivery arrangements that prioritise strategic partnerships with private sector organisations, Higher Education Institutions, Teacher Unions, and civil society organisations.

Last but not least, is the concerted effort the Department will make to turn Circuit Offices into bastion of professional and administrative support to schools, and that is part of the broader service delivery improvement project of the Department. Good luck to all in 2015.

MR Tywakadi

# INTRODUCTION

The National Senior Certificate based on the Curriculum and Assessment Policy Statement (CAPS) was examined for the first time in 2014 at Grade 12 level in the Republic of South Africa. During 2014 the Eastern Cape Education Department has worked tirelessly to ensure that teachers and learners were acquainted to the new curriculum and achieve the targeted outcome in the Province.

The 2014 cohort of learners started their schooling in 2003 and was 286 598 in total. Out of this number of 286 598 only 69 294 were registered in Grade 12 which translates to 27.18 % cohort survival rate. The cohort loss is 217 304 which translates to 78.82%. Furthermore only 66 923 out of 69 294 wrote the examinations which further reduce the survival rate to 23, 35 %.

Amongst strategies that have been introduced by the Department of Basic Education is the Education Sector Plan – Action Plan 2014 towards schooling 2025: which has as its objective to improve performance across the system. This plan has assisted in ensuring the sustained improvement in matric results. It is quite heartening to note that the Grade 12 National Senior Certificate pass rate in the Eastern Cape Province also improved in 2013 and this has raised more hope for the Province in 2014.

Various strategies had been devised, to ensure that there was a complete turnaround in learner performance across the schooling system. The first step taken by the Eastern Cape Department of Education in 2014 was to declare the year of 'Action, Results and Accountability'. This meant that key deliverables had to be identified for the year. Some of the deliverables identified were:

- Ensuring that Curriculum and Assessment Policy Statements (CAPS) are fully implemented, complied with, monitored and supported from Grade R-12.
- Increasing the National Senior Certificate (NSC) overall pass rate in the Eastern Cape Province from 64.9% in 2013 to 70% in 2014.
- Ensuring that every departmental official does their work for which they have been appointed. Furthermore, emphasis should be on strengthening monitoring and support mechanisms;
- Ensuring that schools have their own academic and subject improvement plans as required by the law (which are now revised as LAIS plans), in line with district plans, and which should focus on boosting the performance of learners;
- Ensuring that learners of under-performing schools attend identified LAIS Projects planned by districts and/or schools;

Ensuring the use of supplementary learning material provided by the Provincial Department of Education (DoE) and the Department of Basic Education (DBE) for use during holiday tuition programmes (Autumn, Winter and Spring classes).

However, attempts by the Eastern Cape Department of Education to come up with various learner outcomes improvement strategies have not yielded the desired outcomes; the belief is that there is always room for improvement. In its struggle to promote/implement changes that lead to sustainable performance standards that are guaranteed of success, our Province has not been deterred from its commitment to ensure that it finally achieves its goal.

## 1. SCHOOL-BASED ASSESSMENT

### PROCESSES IMPLEMENTED TO ENSURE COMPLIANCE WITH SCHOOL BASED ASSESSMENT (SBA) REQUIREMENTS IN 2014

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. As in other grades, these requirements are spelt out in the policy document, National Protocol on Assessment and are meant to allow the candidates to work consistently

throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All of these components are put together to produce the candidate's School Based Assessment mark. This is a vital component of the candidate's final result which constitutes 25% of the final mark and must receive continuous attention throughout the year. Conversely, a candidate who does not work consistently throughout the year but expects to redeem his or her prospects in the final examination shall find it challenging to attain a good result. SBA tasks need to be taken seriously.

The absence of a School-Based Assessment and/or a Practical Assessment Task mark in any subject in Grades 10-11, without a valid reason, will result in the candidate, registered for that particular subject, receiving an incomplete result. The candidate will be given three weeks before the commencement of the final end-of-year examination of the relevant grade to submit outstanding work or present himself or herself for School-Based Assessment and/or a Practical Assessment Task. Should the candidate fail to fulfill the outstanding School-Based Assessment and/or Practical Assessment Task requirements, such a candidate will not be resulted and he or she must repeat the subject and redo the School-Based Assessment and/or Practical Assessment Task component for that subject.

In the event of a learner not complying with the requirements of School-Based Assessment and/or Practical Assessment Task in any subject in Grades R-12, but where a valid reason is provided:

- (a) He or she may be granted another opportunity to be assessed in the assigned tasks, based on a decision by the Head of the assessment body.
- (b) The learner must, within three weeks before the commencement of the final end-of-year examination of the relevant grade submit outstanding work or present himself or herself for School-Based Assessment and/or Practical Assessment Task. Should the learner fail to fulfil the outstanding School-Based Assessment and/or Practical Assessment Task Assessment requirements, he or she, registered for that particular subject will receive an incomplete result.

The following processes were put in place to ensure compliance with School Based Assessment (SBA) requirements:

- Monitoring of SBA moderation at all levels by the SBA by Assessment and Examinations, Curriculum FET programme, Department of Basic Education and Umalusi. The SBA marks are standardized against the written marks by Umalusi.

## **1.1. VERIFICATION OF IMPLEMENTATION OF SCHOOL BASED ASSESSMENT (SBA) AND ITS MODERATION**

Verification and monitoring of implementation of School Based Assessment (SBA) is a mandate by the Department of Basic Education to all Provinces. The SBA mark has to undergo all processes of moderation and verification to ensure that it is valid, reliable and authentic. To ensure that all SBA moderation levels are observed, the Provincial SBA co-ordinator developed a SBA verification Programme which focused on on-site visits to verify implementation and moderation of SBA at the District, cluster and school levels. A sample of Districts and schools were monitored and verified.

DBE moderators visited the Province to moderate NSC Grade 12 SBA. This was done in June and in September 2014. In all occasions this was a great success. On 25 – 29 October 2014 the Centralized SBA Provincial moderation was successfully conducted. A sample of 17 subjects was moderated during this moderation session. This was done in two centres. Twenty Percent of the number of schools doing each subject in the Province was moderated.

## **2. WHAT ARE THE REQUIREMENTS FOR A NATIONAL SENIOR CERTIFICATE?**

**In order to obtain a National Senior Certificate the learner must:**

- Offer seven approved subjects and provide full evidence of School Based Assessment for each subject.
- Complete the programme requirements for Grades 10, 11 and 12 separately and obtain distinct outcomes and associated standards for all the grades.
- Comply with internal assessment requirements for Grades 10, 11 and 12; and the external assessment requirements of Grade 12.
- Achieve at least 40% in three subjects, one of which must be an official language at Home Language level.
- Must achieve at least 30% in three other subjects.
- Provide full evidence of the SBA component in the subject failed.
- The table below shows the minimum requirement to obtain National Senior Certificate.

Promotion requirements	Percentage required
Subject 1: Home Language	40%
Subject 2	40%
Subject 3	40%
Subject 4	30%
Subject 5	30%
Subject 6	30%
Subject 7	0 - 29% (Proof of SBA in the failed subject)

**RATING SCALE**

A rating scale is used to summarise achievement. This is the same scale in use in Grades 10 and 11 and which will eventually be used throughout the schooling system when the new Curriculum and Assessment Policy Statements (CAPS) are fully implemented.

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

**3. MINIMUM ADMISSION REQUIREMENTS TO HIGHER EDUCATION**

It must be emphasised that the minimum requirements for admission to Higher Educations are set by Higher Education Institutions (HEIs). HEIs are at liberty to raise these requirements at any time, depending on the number of applicants they receive. They are also at liberty to set their own entrance and placement tests and to set higher requirements for entrance into particular courses or fields of study. Some HEIs do not recognise particular subjects for selection processes into certain study areas. For example, Mathematical Literacy is not recognised in some HEIs

for entrance into courses of study involving Engineering and Sciences. Candidates should consult the HEI of their choice to ascertain entrance requirements.

- Higher Certificate

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi. Institutional and Programme needs may require appropriate combinations of recognized NSC Subjects and levels of achievements.

- Diploma

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

- **4 x 40%- 49% or better (4 x Level 3 including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects and levels of achievements.

- Bachelor’s Degree

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of:

- **4X50%-59% or better (4 x Level 4s Including Home Language)**

Institutional and Programme needs may require appropriate combinations of recognized 20 credit NSC Subjects (which will be known as the designated subject list) and levels of achievements.

Accounting	Engineering Graphics and Design	Mathematics
Agricultural Science	Geography	Mathematical Literacy
Business Studies	History	Music
Consumer Studies	Information Technology	Physical Science
Dramatic Arts	Languages	Religion Studies
Economics	Life Sciences	Visual Arts

## 4. STATISTICS FOR THE NATIONAL SENIOR CERTIFICATE 2014

- **NUMBER OF FULL-TIME CANDIDATES AND EXAMINATION CENTRES**

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year and last year. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after Kwa Zulu Natal, Limpopo and Gauteng provinces.

**TABLE 1.1**

- **NUMBER OF FULL-TIME CANDIDATES ENROLLED FOR NSC IN 2011, 2012 and 2013**

Year	Number Full-time	Increase / Decrease
2011	68 069	
2012	69 427	1358
2013	74 980	5 553
2014	69 294	-5 686

The number of candidates has decreased in 2014 when compared to 2013.

**TABLE 1.2**

## NUMBER OF EXAMINATION CENTRES 2011, 2012, 2013 and 2014

Year	Number of Centres	Increase / Decrease
2011	918	
2012	926	8
2013	926	
2014	923	-3

The number of centres has decreased in 2014 when compared to 2013.

## 5. CHALLENGES

Despite many areas of excellence and a constant improvement in systems and processes through examinations and assessment in the Eastern Cape, there are a number of areas of serious challenge which bear mentioning.

### 5.1. IRREGULARITIES

The province was reducing the number of irregularities from 2011 to 2013. However in the province Grade 12 November / December 2014 irregularities have shown an increase compared previous years. This is because of the poor monitoring of the writing of examinations from the province and district offices due to the lack of transportation as a result of budgetary constraints.

Marking Centre Irregularities Investigator training workshop: The Province is still using Irregularities Investigators instead of Deputy Centre Managers at marking centres. They were trained on the procedures for managing and handling irregularities discovered at marking centres. The workshop took the form of an advisory/ review workshop where one was given a chance to highlight his / her challenges and advice was given where necessary.

Chief Marker's training workshop: The Chief Markers were also thoroughly trained by the Provincial Irregularities Office on how to identify, manage and handle irregularities. These training workshops were focusing on critical areas that could lead to irregularities, such as registration related issues; script control measures; monitoring procedures and handling of concessions.

There were administrative errors or omissions such as late start and candidates that wrote incorrect subject levels, as well as behavioural offences and acts of dishonesty, such as crib notes, mass copying, alleged dictation of answers to candidates, etc. However due processes are being followed in such cases, for instance in candidates who wrote incorrect subject levels the Province has applied for Umalusi lost script concession for these candidates to be resulted and still waiting for the response from Umalusi via Department of Basic Education as per the policy. Candidates that were involved in cribbing their results are blocked in the system (withheld) pending the completion of investigation which will involve charging and conduct of disciplinary hearings. The Province has tried its level best to ensure proper registration of all candidates before the exams but few cases of unregistered candidates were discovered during marking. These few cases were resolved and all such candidates were registered in the system.

The Provincial Irregularities Office once more wishes to extend a word appreciation to all officials at provincial, district offices and in Marking Centres for their tireless dedication as far as the management and the handling of irregularities.

### 5.2. POLICIES NOT ADHERED TO

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorised persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing policy either chose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of

the examination processes such as, Subject Changes, Invigilation and Script Control, must remain a priority for all staff members. Staff training and re-training on policy requirements is a necessity which has been recognized.

### **5.3. NON-PROVISION OF LEARNER AND EDUCATOR EVIDENCE TO BACK UP SBA MARKS**

All educators and candidates are required to keep complete records of all assessments that take place. This does not mean that bulky folders are required to be kept, but during moderation it is a requirement that tangible evidence of learner performance can be produced to substantiate the grades awarded to candidates. It is often the case that when evidence of performance is required schools, educators and candidates are unable to produce it. This leads to an undermining of the credibility of the School-based Assessment mark and to suspicions that educators have not completed learning programmes and that the marks provided are mere guess work. This can have severe consequences for all candidates in the Province as UMALUSI is quite entitled to refuse to certify results as credible and allow them to be released if there is sufficient concern that they may be bogus.

## **6. CONCLUSION**

The mandate of the Examinations and Assessment Directorate is to deliver a credible, effective, efficient and error free examination and assessment service to its users. This, despite the many challenges the Directorate faces, it has managed to continue to provide in 2014 and will no doubt, continue to provide in the years to come. Our commitment to service delivery and to service excellence remains unswerving.

***Working together we can achieve more.***

## 14. Schools Pending Irregularity Investigation

15 Schools are involved in alleged irregularities in the Province. The investigation is in progress in collaboration with the Department of Basic Education, Umalusi and the Provincial Examination Irregularity Committee. The results of the affected candidates are pending until the finalisation of the investigation. The results of those candidates who are found not guilty will be released after the finalisation of the investigation. The Department will take serious action against the schools and the candidates that are found guilty.
